PROFESSIONAL EXPERIENCE

Senior Full Stack Engineer — DevHouse

Faisalabad, Pakistan · On-site · Apr 2021 – Jun 2026

- Owned product architecture and database design for Becomy project, delivering scalable, secure features in Ruby on Rails end to end.
- Built RESTful APIs consumed by Android and iOS clients; integrated third-party gems and external APIs across 10+ client projects.
- Wrote unit and integration test suites and maintained technical documentation for handoff to QA and engineering leadership.
- Reduced API response times on a client project by identifying and eliminating N+1 queries, and independently designed and built a custom multi-tenant architecture for the Becomy project without relying on a third-party gem.

SELECTED PROJECTS & INDEPENDENT ENGAGEMENTS

Delivered independently alongside primary employment at DevHouse.

GroovePacker | Ruby on Rails · MySQL · Redis · Shopify GraphQL · AWS · Stripe | Aug 2024 – Jun 2026

- Built core APIs for an enterprise multi-tenant fulfillment SaaS aggregating orders across 9+ sales channels.
- Implemented multi-tenant architecture (Apartment gem), background job pipelines, and OAuth flows (Doorkeeper).
- Built Stripe billing for tenant subscriptions and a Shopify embedded fulfillment app, published live on the Shopify App Store.

TRACE 3D | React · TypeScript · Vite · Babylon.js · Zustand | Apr 2025 – Jan 2026

- Built and maintained the studio interface for a browser-native 3D AR/XR content-creation platform.
- Integrated the Babylon.js 3D viewer with Zustand-managed state and a composable behavior editor for animations, materials, and interactions.

Multi-tenant Shopify Alternative (ETQ engagement) | Ruby on Rails · Stripe · AvoHQ | Aug 2022 – Aug 2024

- Built a low-cost, subdomain-based multi-tenant storefront platform covering the full e-commerce flow: products, variants, inventory, orders, checkout.
- Integrated Stripe payments and the AvoHQ admin panel.

EAT – The Hunger Network | Next.js · Node.js | Jan 2026 – Jun 2026

- Built and maintained the Next.js web application and supporting APIs for web and mobile clients.
- Integrated [CONFIRM: payment/payout provider name] for payments and payouts.

VetPA | Node.js · React · PostgreSQL · Prisma · OpenAI · Stripe

- AI-powered veterinary clinic SaaS with GPT-4.1 auto-fill and Whisper-based transcription.
